KENTUCKY OPERATOR CERTIFICATION NEWSLETTER

JULY 2009

Wastewater Certification Regulations

On March 6, 2009, new regulations relating to wastewater operator certification went into effect. Wastewater operator certification regulations are now located in 401 KAR Chapter 11. Synopses of the changes are listed here for your convenience. Please visit the program's Web page located at www.dca.ky.gov/certification for access to the new forms and the regulations.

401 KAR 11:001 established the definitions for 401 KAR Chapter 11.

401 KAR 11:010 established the duties of the certification board.

401 KAR 11:020 established standards for the performance of certified wastewater operator duties. This regulation expands and clarifies the ethical responsibilities of a certified operator.

401 KAR 11:030 established the classification and qualifications of wastewater treatment and collection system operators. It created a Class I Treatment Operator in Training (I-OIT) certification. This certification will allow individuals without experience to take the Class I examination, and if they pass, they then can operate under a "probationary license" and be in primary responsible charge. The operators will be required to acquire the required experience before the end of the license period or they will be required to retest to retain their license. The OIT operators must obtain 12 hours of continuing education before they will be able to renew. Operators that acquire the required experience and continuing education hours will be allowed to renew their license without the OIT designation.

This regulation also created four classification levels for collection system certifications. The program has begun offering the examinations and certification schools. The training and testing dates are listed on our Web site and in this newsletter.

401 KAR 11:050 established application and examination procedures; provisions relating to certificate issuance, renewal and termination; reciprocity; training and disciplinary actions. This regulation changed the duration of the limited certification from one year to two years. It also requires potential certified limited certificate holders to pass the Class I exam rather than an inspector-facilitated test. Limited certificate holders are also required to obtain 12 hours of approved continuing education every 2 years.

This regulation changed the time line for the termination of expired licenses from 4 years to 6 months. A certificate shall

In this regulation, we eliminated the concept of process versus non-process and limited the types of classes the board can approve to "core content" items. "Core content" items will be defined by the board and reviewed at least annually. ABC's Need-to-Know Criteria was utilized when defining the core content. The core content list can be viewed at www.dca.ky.gov/certification.

401 KAR 11:060 established the fees for wastewater operator certification. The fee schedule is listed below.

Certification Application Fee - \$100 (previously called an exam fee);

Renewal Application Fee - \$50 for online; \$100 if hardcopy;

Renewal Late Fee - \$250

Reciprocity - \$500

The fees listed above are nonrefundable. Please do not submit an application if you do not meet the education and experience requirements.

Training fees are expected to stay the same. Fifty percent (50%) of training fees shall be refunded if attendance is cancelled at least 2 business days prior to the training event.

Division of Water Regulation Modification—Wastewater

The Division of Water modified 401 KAR 5:010, which contains standards applicable to wastewater facilities. A few of the changes are listed below. You can view the full regulation at www.lrc.state.ky.us/kar/title401.htm.

- Requires that, by Jan. 1, 2010, most collection systems must be operated by a certified operator.
- Exempts collection systems of less than 5,000 linear feet and collection systems at schools.
- Requires operator availability available by phone within 30 minutes and must be able to be onsite within two hours if Class I or Limited certificate required; or within one hour if Class II, III or IV certificate is required.

Questions regarding this regulation change may be directed to the Surface Water Permits Branch, Division of Water, 502-564-3410.

Drinking Water Certification Regulations—Filed

The Division of Compliance Assistance filed administrative regulations on July 14, 2009, relating to drinking water operator certification. DCA proposed to move all drinking water operator certification standards from 401 KAR 8:030 to 401 KAR Chapter 11. 401 KAR Chapter 11 currently contains the standards related to wastewater operator certification. The drinking water operator certification standards will be merged into the existing regulations in Chapter 11. Synopses of the changes are listed here for your convenience. Please visit the program's Web page located at www.dca.ky.gov/certification for access to the proposed regulations.

401 KAR 11:001 establishes the definitions for 401 KAR Chapter 11.

401 KAR 11:010 establishes the duties of the certification board.

401 KAR 11:020 establishes standards for the performance of certified operator duties. This regulation expands and clarifies the ethical responsibilities of a certified operator.

401 KAR 11:040 establishes the classification and qualifications of drinking water treatment and distribution system operators. It creates a Class I Operator in Training (I-OIT) certification. This certification will allow individuals without experience to take the Class I examination and if they pass, they then can operate under a "probationary license." The operators shall not be in direct responsible charge. The operators will be required to acquire the required experience before the end of the license period or they will be required to retest to retain their license. The OIT operators must obtain 12 hours of continuing education before they will be able to renew. Operators that acquire the required experience and continuing education hours will be allowed to renew their license without the OIT designation.

This regulation also creates a new certification for bottled water operators. Only one level of certification was proposed. Certified individuals currently working in a bottled water system (a system that bottles their water for sale) will be grandfathered in.

401 KAR 11:050 establishes the application and examination procedures; provisions relating to certificate issuance, renewal, and termination; reciprocity; and training and disciplinary actions. This regulation changes the duration of the limited certification from one year to two years. It also requires potential certified limited certificate holders to pass the Class I exam rather than an inspector-facilitated test. Limited certificate holders are also required to obtain 12 hours of approved continuing education every 2 years. *Continued on page 3*

NEW FEES

BECAME

EFFECTIVE ON

JULY 6, 2009!

New Fees for Drinking Water Operator Certification

On July 6, new fees went into effect for drinking water operators. The fee schedule is located in 401 KAR 8:050 and is consistent with the wastewater operator fees located on the front page of this newsletter.

Drinking Water Certification Regulations—Filed (continued from page 2)

This regulation changes the time line for the termination of expired licenses from one year to six months. A certificate shall terminate if not renewed on or before Dec. 31 of the year the certification expired.

In this regulation, we also limited the types of classes the board can approve to "core content" items. "Core content" items will be defined by the board and reviewed at least annually. ABC's

Need-to-Know Criteria will be utilized when defining the core content.

A public hearing on these proposed regulations will be held on Aug. 25, 2009, at 10 a.m. at 300 Fair Oaks Lane, Frankfort, KY 40601. Public comments should be submitted to the Division of Compliance Assistance and will be accepted through Aug. 31, 2009.

Division of Water Regulation Modification—Drinking Water

The Division of Water modified 401 KAR 8:030, which contains standards applicable to drinking water facilities. A few of the changes are listed below. You can view the full regulation at www.lrc.state.ky.us/kar/title401.htm.

- Clarified the subclass designations for water plant classifications.
- Added a classification specific to bottled water systems.
- Modified staffing requirements.

A public hearing on this proposed regulation will be held on Aug. 25, 2009, at 10 a.m. at 300 Fair Oaks Lane, Conference Room 301D, Frankfort, KY 40601. Public comments should be submitted to the Division of Water and will be accepted through Aug. 31, 2009.

WTTI—Online Training

The Center for Water Resource Studies (CWRS) and the Bowling Green Community College (BGCC) of Western Kentucky University (WKU) have created the Water/Wastewater Technician Training Institute (WTTI), which is a suite of online classes that leads to an associate's degree in drinking water and wastewater operations. Two classes are scheduled to be offered during the Fall 2009 semester. They are *Water Supply and Wastewater Control* and *Water and Wastewater Instrumentation Control*. Upon successful completion, students will gain three college credit hours per course. These courses are also eligible for continuing education hours.

Because these classes are taught online, the hours are flexible. Classes begin Aug. 31, and prospective students must be enrolled at WKU prior to the start of classes. Contact CWRS at 270-745-8895 to find out how you can get started.

Online Registration for Continuing Education Courses

Individuals are now able to register online for continuing education training events offered by the Certification and Licensing Branch. This new process eliminates the hassle of completing the registration forms and mailing checks. All you need is an Internet connection, a valid credit card, e-mail address and an agency interest number. After completing the easy to use online process, your confirmation letter will be mailed to you.

To register online for a continuing education course, go to http://www.dca.ky.gov/certification and follow the "Link to e-Search". Once you are on the department's e-Search page, follow the steps below to register online.

- Enter your agency interest number, license number or last name in the box on the license e-Search page (you only need to enter one of these parameters). Click on the search button.
- When the License Search Results are listed, find your license and click on the "Licensee Details" link in the first box of the table.
- When the screen opens with your individual information, review your information and verify that
 your address is correct. If any information is not correct, call the Certification and Licensing
 Branch at 800-926-8111. Your confirmation letter will be mailed to the address listed on this page.
- Scroll down past your continuing education history until you reach the Training Events Table.
- Locate the continuing education training event that you would like to attend and click the "+" sign to open the training event for more details. This screen view will provide additional details and allow you to retrieve driving directions to the training facility by clicking "Map It".
- Click the "Add to shopping cart" link. A dialogue box will open and ask if you verified your address. If the address is incorrect, click "Cancel" and contact the Certification and Licensing Branch to submit the address change. If the address is correct, click "OK".
- A payment screen will be displayed. If you wish to add another continuing education training event to your shopping cart, click the "Continue Shopping" link.
- When you have completed selecting all the training events you want to attend, complete the Billing Information fields.
- After entering your billing information, continue to the bottom of the page and select the "Pay Now!" button.

A confirmation notice will be sent to the e-mail address that you listed in the billing information. Certification and Licensing staff will complete the processing of your request and mail a confirmation letter to the operator address on file.

eNotification

The eNotification process is a Web-based application allowing facilities regulated by the Kentucky Department of Environmental Protection (KDEP) to submit routine notifications that are required by law, regulation or permit over the Internet to appropriate staff in the agency. A routine notification involves a release of pollutants or contaminants into the environment that does not cause imminent danger to human health or environment, is below the reportable quantity of the contaminant and does not cause a sheen on waters of the Commonwealth. For public water supplies, routine notification includes the common events that under regulations require a report (mostly line breaks that require a notification) and the potential threat impacts only a small part of the system and a few customers. These should be the only notification types reported using the eNotification process. An emergency notification is defined by KRS 224.00-400 as being an actual or potential release of a pollutant or contaminant in such concentrations that it has or may cause imminent danger to human health or the environment. Should the volume of the hazardous substance in the release exceed the reportable quantity, or should the volume of petroleum in the release

COURSES!

eNotification (continued from page 4)

exceed twenty-five (25) gallons (if diesel fuel, 75 gallons), it is considered an emergency. A chlorine release from a public water system greater than the reportable quantity (10 pounds) is a threat to health and the environment. Any release causing a sheen on waters of the Commonwealth would also constitute an emergency notification. All emergency notifications are to be immediately reported to 800-928-2380 and the appropriate Division of Water (DOW) Regional Office and are not to be reported through eNotification.

The eNotification mode to communicate reportable incidents for the DOW has been addressed in three phases: 1) Pilot Phase, 2) Expansion by Invitation and 3) Full Scale Implementation.

The Pilot Phase has run since November 2005 with about 15 participants. Although a couple of early participants dropped out and not all 10 regional offices were involved, eNotification has enhanced efficiency for the regulated community and for DOW. Massoud Shoa found it so valuable for the Frankfort Regional Office that he has been instrumental and persistent in expansion of eNotification for DOW.

Starting in mid-2007, DOW undertook a selected expansion by invitation, but it has been slow due to resource limitations. After preliminary contacts, letters have been sent to 68 wastewater treatment and collection systems and to 61 public water systems. Responses have not been numerous.

Should you be interested in learning more about the eNotification process or want to participate, please contact the DOW regional office that covers your area.

Schedule of Events

Wastewater Training

Aug. 10-12, 2009	Jenny Wiley SRP	Collection Certification School (WW 6750)
Aug. 18-21, 2009	Barren River SRP	Treatment Certification School (WW 6317)
Aug. 24-26, 2009	Rough River SRP	Collection Certification School (WW 6751)
Sept. 1-4. 2009	Jenny Wiley SRP	Treatment Certification School (WW 6318)

Congratulations to all of our new licensees!

Remember, keep your license up-to-date. Complete the necessary continuing education hours each renewal period and renew your license by the expiration date on your wallet card.

Operators are also required to carry their wallet cards with them when they are working at their facility. Your certificate should also be posted at the facility.

E-mail List

Did you know that you can receive announcements, newsletters and other programmatic information through e-mail? This is a new service offered by the Certification and Licensing Program and you, too, can be added to the distribution list by calling 1-800-926-8111, ext. 652, or by e-mailing Julia. Kays@ky.gov.

Board Member Profiles

Each newsletter will profile two board members.

Dr. Ed Story-Vice chair

Ed Story serves as the vice chairman for the Kentucky Board of Certification of Drinking Water Treatment and Distribution System Operators. Dr. Story serves as the university member for the board. He is the president of the Maysville Community and Technical College. Dr. Story has served on the board since 1995.

Dave Pedigo—Chairman

Dave Pedigo serves as the chairman for the Kentucky Board of Certification of Wastewater System Operators. Mr. Pedigo serves as the industrial wastewater system operator representative. He is employed at Akebono-USA in Elizabethtown. Dave holds a Class IV wastewater treatment license.

Board Meeting Schedule

Both certification boards meet monthly at 300 Fair Oaks Lane in Frankfort, Kentucky. The meeting dates for each board can be located on the program's Web site at www.dca.ky/gov/certification. All operators are invited to attend.

DIVISION OF COMPLIANCE ASSISTANCE

Division of Compliance Assistance Certification and Licensing Branch 300 Fair Oaks Lane Frankfort, KY 40601

Phone: 800-926-8111 or 502-564-0323 Fax: 502-564-9720 Web page: www.dca.ky.gov/certification

FREE Technical Assistance

Available Through Environmental Compliance Assistance Program

Did you know that the Division of Compliance Assistance offers free compliance assistance? Our services are available to all individuals, communities and businesses regulated by the department. We want to help you succeed!

Call us toll-free at 1-800-926-8111.

Green Tip

When buying paper products, only buy recycled and postconsumer paper labeled chlorine-free (TCF) or processed chlorine-free (PCF).
